

 Nazari Co

2 0 2 1

Globally Trusted Brand in The Pistachio Industry

Delivering the Pistachio
You're Looking for

Who We Are

Nazari Pistachio is one of the most prestigious and most reliable pistachio producers and exporters in Iran.

Nearly eight decades of experience in the field of planting, production, and supply of pistachios has made us qualified as a reliable and reputable pistachio producer.

In the last decade, as we were undergoing development, we opted to expand our field of activity by entering into the processing line alongside being engaged in the harvesting of pistachio.

Over the years, Nazari Pistachio increased its export volume by establishing trade relations with European companies and companies from other parts of the world.

We have offices in Iran (Headquarter) and UAE (Sales Office) so that we can have a closer relationship with our customers and better understanding of their needs.

In this way, we will be able to respond to their requests more quickly.

We are proud of the quality of the pistachio that we produce and offer, the ordering experience we create for our customers, and the working environment we try to build for our colleagues.

At the same time, we are always looking forward to any opportunity to get better.

Superiority doesn't come out of staying still; it is the result of constant and smart effort.

What Value Do We Stand By?

With having three generations of farming experience, we rely on our farms and the community of our certified farmers to deliver the pistachios with finest quality.

we believe that our customers' satisfaction is by far the most important aspect of our business. By standing on our values, we aim to become a reliable supplier for our customers around the globe.

What Do We Offer?

Storage

We know that the process of pistachio production does not end in the processing stage. Proper storage of the product is an important part of the production process. The storage condition has a direct impact on the quality of the product that will later be delivered to the customer.

Storage temperature and humidity are important factors and in our facilities, these are constantly monitored by control equipments.

Regular and ongoing inspection of the storage conditions of pistachio products is one of our main actions in Nazari Pistachio. After sorting. In order to ensure the health and freshness of pistachio products, they should be stored at a certain temperature and humidity until the shipping time.

We have several storages in different locations to facilitate the process and make the deliveries faster and more punctual. Our storages are located in:

- Belgium
- Hamburg, Germany
- Valencia, Spain
- Dubai, UAE

Export

Nazari Pistachio has been known as one of the main exporters of pistachios since 1973. Our company is well known in this industry for premium quality Pistachios and Green Kernels. Our quality control experts have made us able to satisfy our customers' demands in terms of quality and safety standards all around the world.

Since pistachio is a sensitive product it requires special storage and transportation conditions in order to maintain its health and freshness. Pistachio kernel is very soft and can be crushed or broken under the slightest pressure.

In comparison to Pistachio Kernel, In-Shell Pistachio is more resistant to transferred pressure and is less likely to be crushed or broken.

According to the mentioned characteristics of pistachio, the main reason for in-process packaging is to protect the product from any damage during storage and transportation.

Here at Nazari Pistachio, we provide different kinds of in-process packing according to the necessary standards and tailored to the weight of the order.

Our different types of packing based on the weight are as below:

Pistachios: 25kg, 50 Kg bags and 1 MT big bags (Jumbo Bags)

Raw pistachio kernel: 10 Kg cartons with inner vacuumed poly bags (Bags Are Available)

Green kernel: 10-12 Kg cartons with inner vacuumed poly bags

In-Shell Pistachio

Pistachio is renowned for its unique taste and extraordinary nutritional properties.

The commercial forms of Pistachio can be found in different varieties and ounces.

At Nazari Pistachio we produce and offer the most popular with the highest quality in-shelled pistachios, pistachio kernels and green kernels.

Fandoghi

Round Pistachio

Size: 28-30, 30-32, 32-34

Place of Origin: Iran

The Minimum amount of Order: 12 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping Details: FCL for shipping from Iran

Packaging Details: 25 and 50 Kg bags and 1 MT big bags (Jumbo Bags)

Description

Fandoghi Pistachio is the smallest type of Pistachio and a bit larger than Hazelnuts. This kind of Pistachio is a great source of protein. Fandogh is the Persian name for Hazelnuts. these types of Pistachio are called after Hazelnuts, because of their similar rounded shape and size.

Applications

For those who look for an economic type of pistachio, Fandoghi is the right choice. Due to the size of this pistachio, there are more pistachios of the same weight as other types, which makes it a good choice for snack packages at a reasonable price

Kalle Ghouchi

Jumbo Pistachio

Size: 18-20, 20-22, 22-24, 24-26

Place of Origin: Iran

The Minimum amount of Order: 12 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping: FCL for shipping from Iran

Packaging Details: 25 and 50 Kg bags and 1 MT big bags (Jumbo Bags)

Description

Kalle Ghoochi pistachio is one of the most famous types of pistachio in Iran. This kind of pistachio is similar to Almond in shape and size which means it has bigger Kernels compared to other types. This makes the Jumbo Pistachio more luxurious and suitable for side-dish uses.

Jumbo Pistachio is found in sizes 20-22, 22-24, 24-26, and 18-20 and it has its own unique flavor.

Application

Kalle Ghoochi Pistachio has a long kernel which makes it suitable for luxury and side-dishes applications. it can also be used directly as a snack or in combination with other nuts, also it can be used as a great super healthy ingredient in foods recipes, confectionery, bakeries, different desserts, Ice cream and etc.

Ahmad Aghaei

Long Pistachio

Size: 24-26, 26-28, 28-30, 30-32

Place of Origin: Iran

The Minimum amount of Order: 12 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping Details: FCL for shipping from Iran

Packaging Details: 25 and 50 Kg bags and 1 MT big bags (Jumbo Bags)

Description

The unique characteristics of this type of pistachio that distinguish it from other types include its green kernel, the uniform redness of the outer shell, the relatively large and elongated dimensions, and its almond shape. Ahmad Aghaei is another type of Almond shapes pistachio in Iran. It's both longer and thicker than the rounded type. Common sizes of this type of pistachio start from 24 and continue up to size 32.

Application:

Ahmad Aghaei Pistachio can be used directly as a snack or in combination with other nuts, also it can be used as a great super healthy ingredient in foods recipes, confectionery, bakeries, different desserts, Ice cream and etc.

Akbari

Long Pistachio

Size: 18-20, 20-22, 22-24, 24-26

Place of Origin: Iran

The Minimum amount of Order: 12 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping Details: FCL for shipping from Iran

Packaging Details: 25 and 50 Kg bags and 1MT big bags (Jumbo Bags)

Description

Long Pistachio has an elongated or very elongated size and it is the longest pistachio compared to other types. Akbari Pistachio skin is also the darkest one among other varieties.

This type of pistachio is known as Smiling Pistachio because its shell is easy to open.

Akbari pistachios can be found in sizes 18 to 26.

Application

Akbari Pistachio can be used directly as a snack or in combination with other nuts, also it can be used as a great super healthy ingredient in foods recipes, confectionery, bakery, different desserts, ice cream and etc.

Pistachio Kernel

The most important part of the pistachio is its kernel which is rich in fat and other valuable nutrients. There are various types of pistachio kernels available in the Iranian market.

In Nazari Pistachio, we have the required expertise and facilities in order to produce superior quality that can be used as a tasty ingredients in bakeries, confectioneries, and etc.

Regular Pistachio

Kernel

Grade: Differs Based on the overall percentage

Place of Origin: Iran

The Minimum amount of Order: 10 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping Details: FCL for shipping from Iran

Packaging Details: 10 Kg Cartons

Description

Regular Pistachio Kernel is delicious and crunchy.

This type of kernel is usually obtained by breaking the closed-shell pistachios. A breaking pistachio line, which is used to break the shells in order to get the kernels.

Application

it's suitable for baking purposes. Due to its characteristics,

Regular Pistachio Kernel can also be used in snack packages and in combination with other nuts.

Kaal Pistachio Kernel

Early-Picked Pistachio Kernel

Place of Origin: Iran

The Minimum amount of Order: 10 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping Details: FCL for shipping from Iran

Packaging Details: 10 Kg Cartons

Description

This kernel is obtained from pistachios that have not yet fully developed and are picked much earlier from the tree.

Application

Kaal Pistachio Kernels are widely used as an ingredient in food recipes (such as Italian pesto sauce or the production of sausages), as the main ingredient of pistachio pastry, as an additional and final touch in ice creams or pastry products like pistachio cookies or pistachio cakes. Kaal Pistachio Kernels can be used as snacks in a mixture of different nuts. It's also being used in the confectionery and food industry as an additive to sausage and ham.

Green Peeled Pistachio

Kernel

Grade: S, A, B, C, D, F, H

Place of Origin: Iran

The Minimum amount of Order: 10 tons from the production origin

* less ordering amount is possible but leads to higher price

* orders of less than two tons are also possible from Europe but lead to higher price

Shipping Details: FCL for shipping from Iran

Packaging Details: 10 Kg Cartons

Description

Green Peeled Pistachio Kernel is characterized by its exquisite green color which comes in combination with a special freshness and unique taste.

To use the Kaal Kernels (Early-Picked Pistachio Kernel) it is necessary to remove the white skin of the kernel in order to show its freshness and clarity. The process of removing the kernel skin is called double peeling.

for double peeling the pistachio, first, we have to put the early-picked pistachio kernel in boiling water for two minutes to soften the skin on the kernel.

Then we take them out of the water and pour them into a container that has cold water, and then we try to remove the skin on the kernel manually. Next, we dry them in the shade and away from sunlight or by utilizing a dryer. There are different types or so-called different grades of Green Peeled Pistachio Kernels (mentioned above). Its price is determined based on the grade of its green color. The best and most expensive of Green Peeled Pistachio Kernels is the kernel with the darkest green color.

Application

Due to its bright and appealing color, Green Peeled Pistachio Kernel is suitable for confectionery and decorative purposes.
